

Participant Home	My Papers	Upload my papers	Checklist
------------------	-----------	------------------	-----------

Dear Anne Wohlbier,

Welcome to our Participant interface. Please download the 'Template' and prepare your WORD and PDF document. Under the button 'Checklist' you find the information how you should prepare your paper.

After you have prepared your WORD and PDF file, go to 'Upload my Papers'. On this page you can enter your "Paper Title" and upload your WORD and PDF document, both are mandatory. Here you will also find the copyright to fill out. You also have the possibility to enter the author's names and affiliation on this page.

After uploading your files please click on the PDF. The PDF will open and a from us generated red control border will appear around the document. All text must be within this red border. Should some text be outside the red boarder please readjust your word file and upload the new version.

At any time you can enter again and upload a new version of your paper until the deadline, just click on "my papers" and then click on the title for which you want to upload a revised version. Here you will also see the Reviews and Status of your paper.

Title Book: Editor/Partipant/Reviewer Tool Test ▼

Go to Checklist to see how to prepare your document. Please check the boxes and submit this checklist after you have finished the uploading of your paper.

- ☐ I followed TTP's author-instructions/sample-article. I only use **and Helvetica (Arial)** for the entire document including special ± • Γ) Other fonts will cause the paper to reproduce incor "square".
- ☐ I set the page settings of my word processor to the A4 format; with the margins: bottom 1.5 cm (0.59 in) and top 2.5 cm (0.98 in), right/left margins must be 2 cm (0.78 in), header 1.25 cm (0.49 in) and footer 0.5 cm (0.19 in). (We shall be able to publish your paper in electronic form on our web page <http://www.scientific.net>, if the paper format and the margins are correct. If not, we will have to scan your paper which, when compared with an electronic version, results in very poor quality)
- ☐ Please always write your **full first and last name** and give us the **email address** of **all authors**. All authors will receive a personal free author login for downloading their own paper from our homepage <http://www.scientific.net>. With this personal login you will be able to make your paper "OPEN Access" or order Offprints/Reprints of your paper.
- ☐ I filled out and signed the proper copyright transfer agreement (mandatory). I did upload the signed copy or I faxed it to +41 44 922 1033
- ☐ I included color pictures and wish to have these printed in full color. Please send an email to authors@ttp.net. Online and on CD/DVD the pictures will always be shown in color.

Keywords: STEP, Finite Element Mesh Ge

Abstract. CAE analysis plays an important role in the modeling ability of the existing CAE analysis. Improving the integration ability of CAE system for mesh generation is described and the application results show that the presented method helps to not only improve the mesh quality but also increase the process efficiency and reduce the time cost.

After uploading your files please click on the PDF. The PDF will open and a from us generated red control border will appear around the document. All text must be within this red border. Should some text be outside the red boarder please readjust your word file and upload the new version.
